DETAILED ACTION

Response to Amendment

1. Receipt is acknowledged of the Amendment After Final filed October 24, 2006. The applicant amended claims 4 and 5.

Allowable Subject Matter

2. Claims 1-6 are allowable.

The following is a statement of reasons for the indication of allowable subject matter: none of the cited prior art of the record discloses, teaches, or fairly suggests an IC card reader for usage with a smart card to reduce card abrasion comprising, among other things, placement tabs extending from a first lateral wall, a second lateral wall, and a longitudinal wall as recited in claims 1, 4 and 6. The closest prior art of the record, Takahashi (US 5,091,618), taken alone or in combination with other references does not disclose a one-piece receptacle lip and does not secure the card along the entire length of such a one-piece lip. Claims 2, 3, and 5 are allowable because they depend from claims 1 or 4. After further search and thorough examination of the present application and in view of the Applicant's arguments and amendments, claims 1-6 are found to be in condition for allowance over the prior art made of record.
